Avenues at Bucks

Avenues is a one-of-a-kind recovery and treatment center! The program they have set up is phenomenal and **helps integrate you back into society** every step of the way, while allowing you to focus on continuing to work the program and keep recovery as an everyday aspect of your life!

Edward S.

This is without a doubt the best treatment center I've ever been to. The staff is compassionate, understanding, and knowledgeable. It's not every rehab that you feel like more than a number or a statistic but **Avenues definitely treats you as a person** and recognizes everyone's potential and capabilities.

Avenues at *Lake Ariel*

The staff was so kind and caring, I've never been in treatment before and I'm glad I chose here for my one and only experience. **This place felt like home** and the progress they helped me make was phenomenal. I'm forever grateful for the Avenues community for helping me in my recovery!

Jacob D.

I never, ever pictured admitting myself to an inpatient rehab facility. However, I knew I couldn't stop drinking on my own. Avenues was recommended to me by a local outpatient treatment center and that turned out to be the best decision I ever made. **My stay at Avenues changed my life.** The staff is caring, dedicated--well, just incredible.
